Identifier

CS. COMMUNITY SAFETY (Priority)

		CS.3 Ensuring Employee Safety, Health and Wellness		
			CS.3.1	Research the feasibility of expanding the Wellness Center by utilizing a gap analysis once the Wellness Center has been open for one year. During this third-party analysis the City would identify where the needs of City employees are and what services that have already been provided are not adequately being utilized.
			CS.3.2	Reduce the frequency, liability, and severity of employee injuries
			CS.3.3	Strategically address the medical management of occupational health services
		CS.4 Improve Transportation Safety		
			CS.4.1	Develop and implement initiatives to improve safety and reduce/eliminate fatalities on our roadways.
			CS.4.2	Implement a community safety education program that includes all transportation modes.
			CS.4.3	Improve public transportation safety through innovation and technology.
		CS.5 Advance and Promote City Environmental Management		
			CS.5.1	Minimize the City's environmental liability and ensure regulatory compliance by transitioning the city from a decentralized to a centralized environmental management model.
