## ANNOUNCING NEW 1 & 2 FAMILY DWELLING FIRE PUMP TESTING CRITERIA

As the NFPA Standards do not provide testing criteria for acceptance testing of fire pumps that are used in 1 & 2 family dwellings, Fire Safety, with the assistance of an ad hoc industry committee, have developed criteria to use.

Attached to the email transmitting this Bulletin is a copy of the document that contains the testing criteria.

The criteria is to be followed for acceptance testing of all fire pumps serving 1 & 2 family dwellings and is effective in 30 days.

Fire Safety wishes to thank the industry members of the ad hoc committee.
