Definitions Page 6

Appendix A Table of Contents Page 7

PURPOSE

The purpose of this schedule is to provide uniform prices and charges in effect for facility rentals, activities and programs in City of Henderson Parks and Recreation Facilities beginning January 1, 2023. This schedule replaces any current schedules and establishes a framework to ensure that all activities are conducted in a manner that limits the impact to facilities and assists the city in recovering the costs of providing such activities and services.

AUTHORITY

The Parks and Recreation Department, as a part of the Cost Recovery Program policy, will evaluate rates every two years and may propose pricing charges if warranted. In 2022, a formal pricing study was conducted by Applied Analysis and the recommended changes were approved by Mayor and City Council at the City Council Regular meeting of November 15, 2022.

GENERAL PROVISIONS**The Director of Parks and Recreation reserves the right to:**

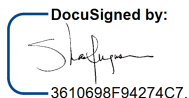

- Negotiate with participants, user groups and concessionaires to offset any additional costs of any activity with the city including administrative charges, facility cleanup or damage, staff services, traffic control and security or police services when the user's event requires these services. Prices shall not be less than those noted within this Schedule. At events/tournaments where an applicant charges admission/team entry, or at commercial events/tournaments, a service charge agreement will be negotiated to ensure costs incurred by the city are recovered. When appropriate, the department may also negotiate a percentage of sales with vendors to recover or offset costs incurred by the city.
- Establish temporary developmental rates, and to engage in promotional and marketing activities to enhance department programs. These rates include, but are not limited to, use of discount coupons and free admission days.
- Schedule or offer public programs and/or special events that may affect the use of parks or pre-empt regular operations or programming.
- Take necessary action to always protect the health and safety of the public and to maintain proper management in relation to the use of department facilities and to determine designated areas of use.
- Limit use and scheduling based on budgetary limitations, the number of requests, or the impact of use on the facilities.

All users must:

- Follow all park rules, including specific rules for individual parks or facilities. Park rules are listed separately and can be found at [Parks and Trails | Henderson, NV \(cityofhenderson.com\)](https://www.cityofhenderson.com/Parks-and-Trails)
- Inappropriate use as defined by Henderson Municipal Code (2.27) may result in cancellation of use and forfeiture of all charges and deposits.
- Be responsible for all added amenities required for their use including, but not limited to, portable restrooms, Dumpsters, security, fencing, power, etc. Users are also responsible to pay the actual cost of repair of any damages incurred by their activity or group.
- Obtain, and provide proof of permits from the Southern Nevada Health District, Clark County and City Business Licensing and other public agencies as required.
- Ensure all activities abide by all local, state and federal laws.
- Groups may be required to provide an indemnity agreement, liability insurance, cleaning deposits, proof of charitable nonprofit status, and/or security deposits based on the type of activity.
- Provide proof of residency.

Rates Approved by City Council on November 15, 2022
