Re: Approval of Substantial Modification to Existing Pretreatment Program – City of Henderson

Dear Supervisor Thomas:

The Environmental Protection Agency (EPA) is pleased to approve your request for substantial modifications to the Pretreatment Program for the City of Henderson (City). EPA reviewed the final modifications submitted by the City on November 17, 2021, and determined that they meet the requirements under 40 C.F.R. §403.8(f).

EPA has also determined that the City satisfied all public notice procedures required under 40 C.F.R. §403.11 for substantial Pretreatment Program modifications, including publishing a 30-day public comment notice in the Las Vegas Review-Journal and mailing separate notification to interested parties, including the Nevada Division of Environmental Protection, U.S. Fish and Wildlife Service, and Nevada Department of Wildlife on August 27, 2021. No comments were received during the public notice period. In accordance with 40 C.F.R. §403.18(c)(4), EPA is approving the final modifications without additional notice.

With this approval, the modified Pretreatment Program shall be an enforceable condition of your NPDES permit, no. NV0022098, as of the date of this letter. If you have any questions, please contact Amelia Whitson of my staff at (415) 972-3216.

Sincerely,

Tomás Torres, Director  
Water Division

ecc: Jennifer Carr, Deputy Administrator, Nevada Division of Environmental Protection
